

OUR PROGRAMS

BACHELOR DEGREE PROGRAMS

BACHELOR OF SCIENCE IN HEALTH SCIENCES

PSI's Bachelor of Science in Health Sciences degree (BSHS) program is designed for students who already hold an Associate of Applied Science degree in a health care field. This BSHS degree program builds upon your current experience and provides a variety of career options after completion. Graduates of the BSHS program may transfer/enroll to a graduate-level health care career program that may include, but is not limited to, Doctor of Physical Therapy, Nurse Practitioner, Physician Assistant, Athletic Trainer, and Prosthetist/Orthotist. Some additional courses may be required for various graduate programs. For graduates opting to enter the workforce directly after graduation, the additional earned bachelor's degree will provide career advancement opportunity and upward economic mobility.

ASSOCIATE DEGREE PROGRAMS

LPN TO RN BRIDGE

The LPN to RN Bridge program is meant for Licensed Practical Nurses who have completed a practical nursing program and have already earned a diploma with at least 48 quarter credit hours, or the equivalent in semester hours. Upon successful completion of the program, the graduate will be eligible to apply to take the National Council Licensure Examination for Registered Nurses (NCLEX-RN).

PHYSICAL THERAPIST ASSISTANT

The Physical Therapist Assistant program includes general education and technical physical therapist assistant courses as well as practical clinical experience. Upon successful completion of the program, graduates will be eligible to apply to take the National Physical Therapy Exam through the Federation of State Boards of Physical Therapy.

DIPLOMA PROGRAMS

PRACTICAL NURSE

The Practical Nurse program is designed to provide the theoretical knowledge and clinical competence necessary to prepare competent and caring practical nursing graduates for entry-level positions under the direction of a Registered Nurse, Physician, Nurse Practitioner or Physician's Assistant. Upon successful completion of the program, the graduate will be eligible to apply to take the National Council Licensure Examination for Practical Nurses (NCLEX-PN).

Professional Skills Institute is a private post-secondary institution of higher education serving Northwestern Ohio and Southeastern Michigan. The institute offers campus-based, career-focused diploma and degree programs, leading to professional certifications and licenses in a variety of healthcare fields.

Bachelor of Science in Health Sciences

To provide the necessary training for a student to attain a Bachelor of Science in Health Sciences degree.

PSI's Bachelor of Science in Health Sciences degree (BSHS) program is designed for students who already hold an Associate of Applied Science degree in a health care field. The roles and responsibilities of health care clinicians requires the commitment to ethical practice grounded in research and practiced in the context of a diverse society.

This Bachelor of Science **degree** program builds upon your current experience and provides a variety of **career** options after completion. Graduates of the BSHS program may transfer/enroll to a graduate-level health care career program that may include, but is not limited to, Doctor of Physical Therapy, Nurse Practitioner, Physician Assistant, Athletic Trainer, and Prosthetist/Orthotist. Some additional courses may be required for various graduate programs.

For graduates opting to enter the workforce directly after graduation, the additional earned bachelor's degree will provide career advancement opportunity and upward economic mobility.

Obtaining your Bachelor of Science in Health Sciences degree provides career opportunities offering job stability, flexible schedules, a good job outlook, and rewarding **financial benefits** as part of the **essential workforce**. If you are a Physical Therapist Assistant with an AAS degree or a health care professional with an AAS degree in another health care field looking to move forward in your career and increase your employment opportunities, then the BSHS degree program at Professional Skills Institute may be a good option for you.

Professional Skills Institute is accredited by the Accrediting Bureau of Health Education Schools.

72 WEEKS

The length of the Bachelor of Science in Health Sciences program is 72 weeks across six 12-week quarters.

The BSHS degree program will equip current health care clinicians to meet society's needs in a rapidly changing health care environment.
